Modern Public School

Class 10th -- Percentage = 68%

SKILLS

- **Web Tools** - HTML5 , CSS , JavaScript
- **JavaScript Library** - React JS
- **CSS Frameworks** - Bootstrap
- **Version Control System** - GIT
- **Programming Language** - C++ , Python

PROJECTS

Zomato Website Clone

- I created the fully responsive Zomato's page in 2 Languages.
- Made the basic structure of the web page by using **HTML5**, styling with **CSS** (all the background colours , alignments , button hover effects etc) **Media Query** to make the page responsive and resize according to the size of device, applied the **JavaScript** Logic to open and close the accordions , hide and unhide the modals, take area name from form and display it to different places on page etc , and **GIT** for the version control.
- Visit - <https://responsive-zmato.netlify.app/>

My Portfolio Website

- I proudly crafted my own portfolio website from scratch, showcasing my skills and accomplishments to the world.
- I created the structure of the web page by using **HTML5** , did the styling with **CSS** (all the background colours , alignments , button hover effects etc), applied the **JavaScript** Logic to load the animations only when the user scrolls to a particular part of the page and **GIT** for the version control.

College Canteen Website (Under Development.)

- This project is a full-stack college canteen website, streamlining the ordering process and enhancing user experience. It uses **HTML5, CSS, JavaScript and React JS** for the frontend and it will use **Node.js** and **MongoDB** for the backend. Implemented user authentication, menu management, and order tracking features to ensure efficient operations.
- Currently it uses **HTML5 , CSS , JavaScript** and uses **GIT** for the Version control.
